As a valued or prospective customer, we wish to share with you Soil Surveys' contract drilling capabilities.

At Soil Surveys we understand what cost-efficiency and rapid response can mean to your bottom line. We therefore offer industry leading geotechnical rigs and equipment, proven capability, trained operators, geotechnical engineering supervision (if required) and quick and efficient responses to our Client's most urgent drilling needs...large or small, anywhere in Australia.

Please email us at info@soilsurveys.com.au, visit our website or phone Glen (0419 654 574) to discuss how we can assist you with your next drilling project.

<p>Hydrapower Explorer 500</p>	<p>100mm solid flight auger & 100/75mm washbore to >150m NMLC/NQ/HQ/4C core >150m & 75-200mm air drilling to >100m / NW/HW casing U50's, U75's, SPT, Vane Shear Purpose built on board CPT pusher - push capability 20T</p>
<p>Hydrapower Scout 1 & 2</p>	<p>100mm solid flight auger & 100/75mm washbore to >50m NMLC/NQ/HQ core to >50m & 75-100mm air drilling to >50m / NW/HW casing U50's, U75's, SPT, Vane Shear</p>
<p>EVH1750 & Jacro105</p>	<p>100mm & 300mm solid flight auger to 6.0m U50's, Disturbed samples, DCP testing</p>
